

Title : Plastic Disaster

Plastic waste or plastic problem is one of the biggest problem nowadays we should solve as fast as we can. Plastic can cause many problem such as microplastic problem, pollution from plastic burning, etc.

This poster design was inspired by an idea that a plastic problem is in a huge scale problem as a disaster effect to our life in many way. I compare a plastic waste as a unit of a disaster such as a fire, air pollution and flood because of it's danger to our life.
